The Stars Say-

For Sunday Jan 10

SUNDAY SHOROSCOPIS is a rather difficult one to forcers with perplexing and confusion conditions in the personnel life it would be well to be very discrete in private affairs and to be on guard against trickers fraud and subtlety Be rearful with private correspondence. Employment is under favorable rule. Writings publishing and kindred matters should flourish.

Those whose birthdry it is are confronted by a year of problems and perplexities free private lite is under a rather crilical mier ship calling for the exercise of much discretion and taot. Secret enmittes subtledy and confusion prevail Employment is fairly well aspected as are writings publishings and promotions.

A child horn on this day may be inclined to be secretive, and subtle and there may be anxieties in its domestic or private resistions.

rejations

For Monday Jan 11

MONDAY'S ASTROLOGICAL, forecast is a very fortunate one with much progress and new opportunities especially in connection with large internets. This may cause important change with new environs and associations. The finances are well fortified with the prospect of launching fresh projects. It is a tavor able time for pushing with energy and initiative.

Those whose birthday it is stand at the threshold of a year of progress and prosperity. Now openings probably in strange places and with new contacts of importance are foreseen. These benefits have strong reactions on the private affiliations. A child born on this day may be enterprising ambillous and capable and may be able to put over large projects with distinction.
